Contest Information

CONTEST TIMING

Each contestant has been allocated an 11- minute cycle time to allow for entering the stage, performing their contest songs and exiting. If you feel that you need longer than the allocated 11 minutes, please contact the Contest Manager as soon as possible so that the final timing schedule can be produced.

ACCESSIBILITY

The convention centre is a fully accessible building. Please notify us in advance on your Contest Declaration Form of any accessibility needs. Please also inform the Courier Team on your arrival of these needs, so they can allow extra time for those concerned to move through the contest cycle, as routes may vary from direct walking routes. If you need any equipment such as a wheelchair, please ensure you bring yours with you.

STAGE ACCESS

Entry to the stage area will be at the discretion of the Stage Manager. There are no Tabs/Curtains. You will enter Stage Left and Exit Stage Right. All contestant access & egress is from backstage and is via two short flights of stairs. Wheel chair access is via a lift to the backstage corridor, and then it is level all the way to the stage.

As soon as you are in position on the risers, the Stage Manager or his assistant will ask you to indicate when you are ready. Your readiness will then be signalled to the MC.

CONTESTANT ANNOUNCEMENT

The MC will then commence your announcement on the lines of:

Stewards can you close the doors please - can we have the house lights down. Contestant number..... From..... Under the direction of Chorus Name.....

At this point the stage lights will come up and you will be judged for Performance. There will be no further signal to start singing in either song, or to make your exit. In the interests of the timetable, please keep acceptance of applause to a courteous minimum. If there is a false start to either song, stop and restart. Performance judges will continue to judge but other categories will restart their marking with your fresh start.

VERBAL COMMENT

Non-singing dialogue is generally not part of a contest performance. However, relevant brief comment with supporting visual communication is permitted, to help establish a mood and/or theme, before, in between and at the end of the performance package. Spoken words deemed to be excessive or detrimental to the performance shall be penalised by the Performance Judge(s) up to and including forfeiture. Stage

12 risers on the contest stage. The distance from the centre of the risers to the end of the stage is 5.60 metres and 2.17 metres from the edge of the front riser to the edge of the stage.

The performance area will be lit to provide an even “face light” so the performers may be seen easily. The background of the stage will be lit with colour “mood” lighting (see heading below).

Risers Layout

Mood Lighting

New for Harrogate: Introduction of Mood Lighting For Contests

Choruses will have background lighting for each of their contest songs. Coloured lighting will NOT be focused on the stage performance area, this will be lit with a general stage wash as in previous years. This will permit proper lighting for video.

There are 7 choices of colour:

Red, Orange, Yellow, Green, Blue, Indigo and Violet.

- The chosen colour will be displayed on a “cyc cloth” behind the performance area.
- You may choose the same colour for both songs or a different one for each song.
- The colour you choose for the first will be displayed at the introduction of the chorus and will continue until the applause ends after your first song.
- The colour you choose for the 2nd song will be displayed at the end of the applause for the first song and will continue until the stage lights go down at the end of your performance.
- The background colour cannot be changed mid-song. It remains in place for the entire song.
- If you do not request a specific colour, the technicians will choose one at random.

Sound & Vision

TECHNICAL INFORMATION

The sections below are designed to give competitors, an insight in how the technical aspects of this event are implemented.

Sound

As in previous years an active line array foldback system is in use on the stage, to provide an ambient acoustical environment for performers.

The chorus contest is amplified to the main auditorium in the following way:

A selection of DPA microphones are suspended above the chorus risers. These microphone's provide the audio source for both the amplified sound and the recording, audio and video. The audio signals are split into two defined systems, one to amplify the sound for the auditorium and one to provide the audio for recording of both audio and the video's.

All the amplified feeds are provided into the auditorium in a mono format to ensure as even coverage as possible for all spectators in the audience. At present we use the in-house loudspeaker system, but this is something that may change in the future. For the avoidance of doubt, NO compression is used anywhere in the audio chain.

Recorded Audio!

Sound to a barbershop person is clearly the most important thing! The sound on these recordings is taken from the BABS recording team and mixed by one of the BABS in-house team.

When we record this audio for the video we DO NOT alter this in any way. You may or may not hear a difference in the video audio against the audio file you receive. This is purely down to the way in which the technology encodes the audio, the source is the same and unaltered.

Please bear in mind that when you watch the video back on a computer, iPhone, YouTube etc, the playback device you are using may alter the sound in many ways. For example, the speakers on an iPhone are very small and will sound very different to the sound through a home hi-fi system. With all of this in mind; we do hope you enjoy the record of your performance from this event.

Video

What's the Purpose of the Videos?

It is created to give you a record of your performance on the day. We use High Definition cameras and recording equipment to give the best possible picture. We do not use any "artistic" video work, such as zooming the picture, so that the best possible overall record is made for the club to review their performance.

The videos take a few days after the event to edit, title and check. A copy of the individual contest performance is made available to the club, via a private link, to view and download.

Every competitors' performance will again be made available, free of charge, to all members via the BABS On-Demand Free-to-View service. Full details to be published separately.

Contest Recordings Policy Social Media Usage

I would like to draw your attention to uploading contest videos on to YouTube.

The BABS Board of Directors has sought external legal advice, and our advisor has confirmed that copyright of BABS' contest performances has two elements: Copyright of the Recording and Copyright of the Music.

Copyright of the Recording

BABS owns the copyright of all the contest videos and approval for use is required from the organisation.

Copyright of the Music

The copyright of the songs remains with the copyright holders of those songs, but YouTube in the UK has a blanket agreement with music publishers and separate approval is not required. However, should the owner of the copyright of a particular song not be part of this agreement, then that copyright owner may ask Google, owner of YouTube, to remove that song; it is not necessary for whoever uploads that recording to get specific permission.

It is still a prerequisite that you get full approval from the copyright holder to sing their songs in contest, and as part of your repertoire.

Uploading to YouTube

The Board of Directors, given the legal clarification, has decided that contestants may load the recording of their performance on to YouTube. This is conditional upon any person or body that uploads this recording, being responsible for any and all payments incurred as a result of any legal action.

Other BABS Events

Any recordings taken at BABS educational events like Harmony College or Directors Academy, plus any non-contest activity at Convention and any other BABS organised event, are the copyright of BABS. Any recordings taken at these events should not be uploaded to YouTube or any other social media site, as permission has not been granted to do so.

In the meantime, if you have any questions please let me know.
