Sound/Lighting Test Chorus

There is an opportunity for all competing choruses (if in Harrogate on Thursday evening) to send a few representatives to the sound and lighting test on the Thursday evening. This will be on the convention contest stage at 20:00 and could last up to a couple of hours. Apart from providing us with a chorus to test the technical set-up, it will allow someone from your chorus to see and experience the contest stage and so report back to your singers of their experience. If you have anyone available for this opportunity, please send their names (and singing part) to Ali Jack at registrationsmanager@singbarbershop.com, and then ask them to report to the BABS Reception Desk at 19:45. Please use the subject heading "sound-test chorus".

All contestants must have registered for convention before the 31st March 2020. These can be bought online from the BABS Box Office at www.sing2020.com

Stage Risers and Mood Lighting

STAGE

12 risers on the contest stage. The distance from the centre of the risers to the end of the stage is approximately 5.60 metres and 2.17 metres from the edge of the front riser to the edge of the stage. The performance area will be lit to provide an even "face light" so the performers may be seen easily. The background of the stage will be lit with colour "mood" lighting (see heading below).

MOOD LIGHTING FOR CONTESTS

Choruses will have background lighting for each of their contest songs. Coloured lighting will NOT be focussed on the stage performance area, this will be lit with a general stage wash as in previous years. This will permit proper lighting for video.

There are 7 choices of colour:

Red, Orange, Yellow, Green, Blue, Indigo and Violet.

- The chosen colour will be displayed on a "cyc cloth" behind the performance area.
- You may choose the same colour for both songs or a different one for each song.
- The colour you choose for the first will be displayed at the introduction of the chorus and will continue until the applause ends after your first song.
- The colour you choose for the 2nd song will be displayed at the end of the applause for the first song and will continue until the stage lights go down at the end of your performance.
- The background colour cannot be changed mid-song. It remains in place for the entire song.
- If you do not request a specific colour, the technicians will choose one at random.

Sound and Vision

TECHNICAL INFORMATION

The sections below are designed to give competitors, an insight in how the technical aspects of this event are implemented.

SOUND

As in previous year's, an active line array foldback system is in use on the stage to provide an ambient acoustic environment for performers.

The chorus contest is amplified to the main auditorium in the following way: A selection of DPA microphones are suspended above the chorus risers. These microphone's provide the audio source for both the amplified sound and the recording, audio and video. The audio signals are split into two defined systems, one to amplify the sound for the auditorium and one to provide the audio for recording of the videos.

All the amplified feeds are provided into the auditorium in a mono format to ensure as even coverage as possible for all spectators in the audience. For the avoidance of doubt, NO compression is used anywhere in the audio chain.

Recorded Audio!

Sound to a barbershop person is clearly the most important thing! When we record this audio for the video we DO NOT alter this in any way. Please bear in mind that when you watch the video back on a computer, iPhone, YouTube etc, the playback device you are using may alter the sound in many ways. For example, the speakers on an iPhone are very small and will sound very different to the sound through a home hi-fi system. With all of this in mind; we do hope you enjoy the record of your performance from this event.

VISION

What's the Purpose of the Videos?

It is created to give you a record of your performance on the day. We use High Definition cameras and recording equipment to give the best possible picture. We do not use any "artistic" video work, such as panning the picture, so that the best possible overall record is made for the club to review their performance.

The videos take a few days after the event to edit, title and check. A copy of the individual contest performance is made available to the club to view and download. Details to follow.

Every competitor's performance will again be made available, free of charge, to all members via the BABS On-Demand Free-to-View service. Full details to be published separately.

Contest Recordings Policy Social Media Usage

We would like to draw your attention to the BABS policy on uploading contest videos on to YouTube and sharing across Social Media Platforms.

The BABS Board of Directors has sought external legal advice, and our adviser has confirmed that copyright of BABS contest performances has two elements: Copyright of the Recording and Copyright of the Music.

1. Copyright of the Recording

BABS owns the copyright of all the contest videos and approval for use is required from BABS.

2. Copyright of the Music

The copyright of the songs remains with the copyright holders of those songs, but YouTube in the UK has a blanket agreement with music publishers and separate approval is not required. However, should the owner of the copyright of a particular song not be part of this agreement, then that copyright owner may ask Google, owner of YouTube, to remove that song. It is not however necessary for whoever uploads that recording to get specific permission.

It is still a prerequisite that Clubs get full approval from the copyright holder to sing their songs in contest, and as part of their repertoire.

Uploading to YouTube

The Board of Directors, given the legal clarification, has decided that we will upload contest videos to YouTube via the BABS account and will make links available to Clubs. The videos will also be loaded onto our SingOnDemand platform (Vimeo). BABS will hold the original contest videos.

Clubs may further share such material on social media, conditional upon them being responsible for any and all liabilities incurred as a result of any legal action regarding copyright.

Other BABS Events

Any recordings taken at BABS educational events like Harmony College or Directors Academy plus any non-contest activity at Convention or any other BABS organised event, are the copyright of BABS. Any recordings taken at these events, whether taken by BABS or otherwise, may not be shared by Clubs, as permission to do so has not been granted.

Questions

Please refer any questions on the operation of this policy to the BABS Director of Administration email: administrationdirector@singbarbershop.com.

How choruses are placed into divisions

Choruses are placed into divisions according to the score they achieved in their most recent BABS contest, usually the 2019 contest. If a chorus did not compete in 2019, their score from 2018 has been used, and these choruses are denoted by *. If a chorus has not competed in the last two years, they are ineligible to receive a division award. If a chorus is competing in a BABS contest for the very first time, they have been placed into Division 1, and are denoted by ^.

Choruses are listed in alphabetical order, not their 'seeded' order.

Please note the division boundaries have been altered this year. This is to achieve a more balanced number of choruses in each division, and is thanks to the rising standard of choral singing within BABS.
